

7 & 10 Foot End Wheel No-Till Drill

**Large drill performance,
compact drill versatility.**

The End Wheel No-Till Drill is the perfect balance between compact versatility and larger drill productivity. This unit is at home seeding in a wide variety of applications that range from pasture renovation to mine reclamation.

The 7' and 10' End Wheel Drills feature large end wheels designed for unmatched ground gauging in rugged pasture terrain. In addition, the in-line end wheels minimize side-loading on contours and side-hills, dramatically extending the life of the no-till openers. Other features include 4-speed gearboxes, automatic clutch for end row field turns and rain tight lids for maximum seed and fertilizer protection.

Features a new four speed gear box on both main seed and native grass boxes.

Features

4-Speed Gearbox	Water Tight Lids
Wide Steel Walkboard	Transport Lights
2 x 13 Press Wheels	Acre Meter
Lock Out Hubs	Seed Level Indicator
Fluted Feed Cups	V-Bottom Dividers
2 Coulter Options	Weight Brackets Integral

Options

Small Seeds	Air Design Disk Scrapers
Native Grass	Seed Cup Plugs
Dry Fertilizer	Coil Tine Harrow
Folding Tongue	Seed-Lok
Weight Bracket	

Opener Options

05 Series

Specifications

	1006NT	706NT
Model Name	1006NT	706NT
Length	13' 10"	13' 10"
Overall Width	12' 7"	9' 10"
Working Width	10'	7'
Transport Height	7'	7'
Transport Clearance	13 1/2"	13 1/2"
**Weight (approx)	4500 lbs.	3900 lbs.
Row Spacings	7", 7 1/2", 8"	7", 7 1/2", 8"
Number of Openers	16, 15, 14	11, 10, 10
Seed Box Capacity	2.5 bu. per ft.	2.5 bu. per ft.
Tire Size	9.00 x 24 8 ply	9.00 x 24 8 ply
Opener Travel	8"	8"
Opener Depth Range	0 to 3 1/2"	0 to 3 1/2"
Opener Down Pressure	100 to 180 lbs.	100 to 180 lbs.
Coulter Depth Range	0 to 4"	0 to 4"
Coulter Pre-Load	450 lbs.	450 lbs.

Note: Weights based on 7.5" spacing and will vary depending on options. Transport clearance will vary depending on tractor.

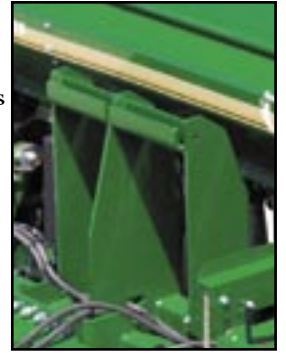

Main Box

Utilizes the reliable fluted feed design to efficiently seed a wide variety of seeds from peas to alfalfa.

Weight brackets

Built in weight brackets allow you to add your tractor weights to penetrate hard ground.

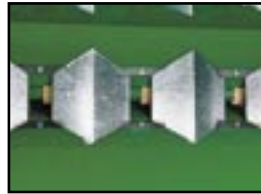

Small Seeds Box

The small seeds box attachment utilizes a smaller version of the fluted feed cup to accurately meter seeds such as clover, alfalfa and other small seeds.

Easy Cleanout

V-bottom seed boxes are designed for complete cleanout (Main Seed Box).

Native Grass Box

The picker wheel feed design is aggressive enough to feed fluffy, native grass blends like: Big Blue Stem, Indian Grass, and Side Oats Grama. This box comes standard with an agitator to keep seed moving toward the meter.

Lock-Out Hubs

Lock-out hubs disengage all chains and sprockets for reduced wear during transport.
